## Defense | Aerospace | Fuel Cells | Power Generation | Dielectric Materials

Discover Excellence in Precision Plastic Components with K & E Plastics, Inc. Backed by over 57 years of expertise, our family-owned company combines cutting-edge CNC machining technology with the skill of our top-tier machinists to deliver custom plastic components of unparalleled quality. As your trusted single-source contract manufacturer, we prioritize efficiency and simplicity in every project, streamlining the plastics production process from concept to completion. We adhere to NIST SP 800-171 standards, ensuring the safeguarding of sensitive information at every step. Partner with K & E Plastics, Inc. and experience the difference expertise and dedication make in your manufacturing needs.

**CAGE 1YSH9**

**UEI VL8TD47S4FD5**

**NAICS**

## CORE COMPETENCIES

Specialized in the machining of thermosets and thermoplastics.

**Polycarbonate / LEXAN**

**G-10 / FR-4**

**Fiberglass / GPO-3**

**Delrin / Acetal**

**Phenolics / Garolite**

**Glass Filled Plastics**

**Glass Laminates**

**PEEK**

**Ultem**

**Nylon**

## DIFFERENTIATORS

- Precision shop tolerance
- GD&T and Coordinate Measuring Machines
- Extensive dust collection system
- Worldwide customer base
- Reverse engineering
- Innovative workforce development initiatives
- Over 30 state-of-the-art CNC machines
- Blanket orders / Kanban
- Capabilities from micro components up to 96"

## PAST PERFORMANCE

- FEMA
- Northrop Grumman (SUB)
- ULTRA Electronics Ocean Systems
- Ray Machine
- EAST/WEST Industries
- ESPEY
- Collins Aerospace
- AMETEK Aerospace
- United Technologies
- BAE Systems
- TESLA
- General Dynamics/NASSCO
- NWL Transformers
